

316 Stainless Steel Light Bow Anchor Roller

Power Marine is 316 Stainless Steel Light Bow Anchor Roller manufacturer and supplier in China who can wholesale 316 Stainless Steel Light Bow Anchor Roller. We can provide professional service and better price for you. If you interested in Anchor Roller, please contact with us. We follow the quality of rest assured that the price of conscience, dedicated service.

316 Stainless Steel Light Bow Anchor Roller

Product Introduction

Power Marine is a leading China 316 Stainless Steel Light Bow Anchor Roller manufacturer, supplier and exporter. Bow Anchor Roller Stainless Steel Self Launching Heavy Duty Bow Roller; Marine Grade Stainless Steel Surface Super Mirror polishing; Easily raises and lowers the anchor without damaging the topsides; With a hard rubber roller for anchor chain; Pre-drilled mounting holes for easy installation, Suitable for boat and yacht.

Product Parameter (Specification)

Product name	316 Stainless Steel Light Bow Anchor Roller
Specification available	Multiple sizes
Standards that follow to	ISO 9001, CE, TUV, CSS, SGS.
Samples available	Yes.
Packing method	Bubble bag+Wooden carton
Production lead time	10-15 days for a 20ft container, 20-25 days for a 40ft container.

Product Feature And Application

316 Stainless Steel Light Bow Anchor Roller is an important device used to support and fix ship anchoring equipment. This paper will introduce the characteristics, advantages, selling points and application fields of Anchor Roller.

The characteristics of 316 Stainless Steel Light Bow Anchor Roller

High corrosion resistance

316 Stainless Steel Light Bow Anchor Roller are usually made of high-strength stainless steel, which has excellent corrosion resistance and can work in harsh environments such as seawater and rain.

High strength

The high strength stainless steel makes the bearing capacity of the Marine stainless steel anchor bracket very strong, and can effectively support and fix the anchoring equipment.

High stability

The design structure of 316 Stainless Steel Light Bow Anchor Roller is reasonable, which can ensure its stability in the complex environment such as ocean currents and wind waves.

The selling point of 316 Stainless Steel Light Bow Anchor Roller

High quality

High quality stainless steel material is used to ensure the excellent quality and long life of Anchor Roller.

Safe and reliable

Boat Anchor Roller can withstand strong external forces to ensure the safety and reliability of anchoring equipment.

Strong applicability

Anchor Roller has a wide range of application, can be applied to all kinds of

ships, good stability, easy installation, is the ideal choice of ship anchoring equipment.

The application field of 316 Stainless Steel Light Bow Anchor Roller

Anchor Roller is suitable for all kinds of ships anchoring equipment. It is mainly used for fixing ship anchors, winches, cables, etc., and supporting offshore platforms, wharfs, etc. Especially in the case of strong winds and large waves, the Anchor Roller can enhance the stability and safety of the anchoring equipment, so that the ship is safely mooring.

The selling point of Boat Anchor Roller is high quality, safety, reliability and applicability, and has the characteristics of corrosion resistance, high strength and strong stability. Through careful selection and correct installation, 316 Stainless Steel Light Bow Anchor Roller can provide effective anchoring support for various types of ships, and is one of the necessary equipment for modern ships.

The advantages of 316 Stainless Steel Light Bow Anchor Roller

Strong durability

Due to the use of high-strength stainless steel materials, Anchor Roller has a long service life and is not easy to rust, corrosion, aging and so on.

Easy to install

The design of Anchor Roller is simple and compact, convenient and fast installation, which can reduce the time and cost of installation and maintenance.

Strong earthquake resistance and pressure resistance

In order to ensure the safety of the anchoring equipment in the case of sea and air storms, the seismic and compressive resistance of the 316 Stainless Steel Light Bow Anchor Roller is very strong, and it can resist the external forces such as wave impact and wind pressure.
